

IMC XVI • GRAND ONLINE ROUND

HOW TO TAKE THE EXAM

A step-by-step guide for students: log in, test your camera, choose your language, sit the exam and download your certificate.

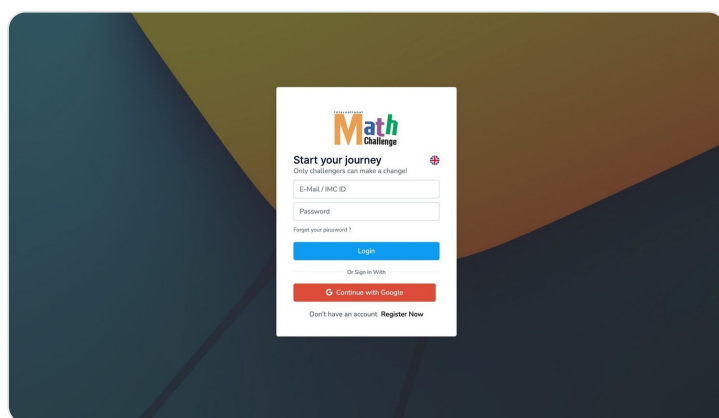

8 steps

75 minutes

Webcam required

Exam: 15–16 January 2027

mathchallenge.in.th · register.mathchallenge.in.th · register@mathchallenge.in.th

01

Log in to your account

Go to **register.mathchallenge.in.th** and sign in with your email and password, or with **Continue with Google**.

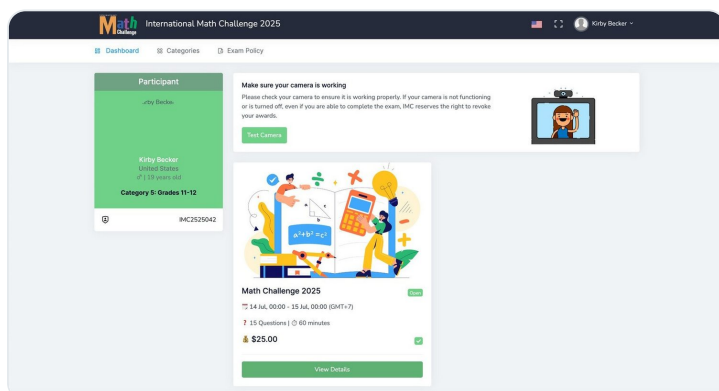

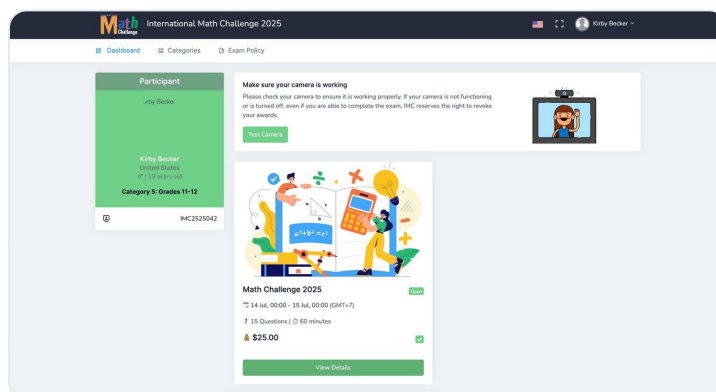

TIP Forgot your password? Use the "Forgot your password?" link before exam day, not during it.

02

Test your camera

On your dashboard, click **Test camera** and make sure it works. Your webcam must stay on for the whole exam.

TIP If your camera is off or not working, IMC reserves the right to revoke your awards, even if you finish the exam.

03

Open the exam details

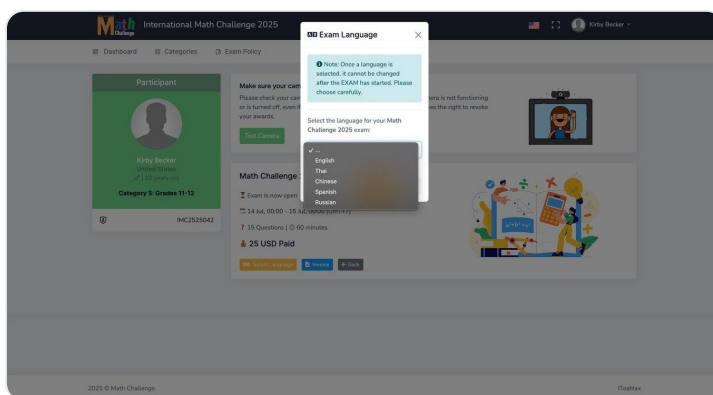

Select **View details** to see the dates, the number of questions, the time limit and your payment status.

04

Choose your exam language

Click **Select language** and pick the language you are most comfortable with: English, Thai, Chinese or Russian.

TIP Choose carefully. Once the exam has started, the language cannot be changed.

05

Start the exam

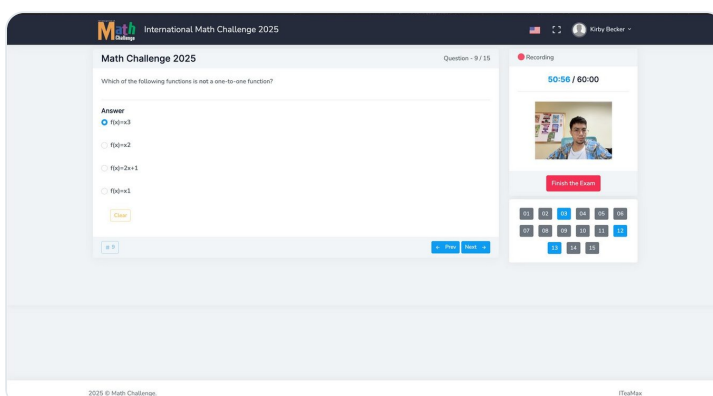

When the exam is open, press **Join now** and begin. The timer counts down at the top right, and your webcam records while you work.

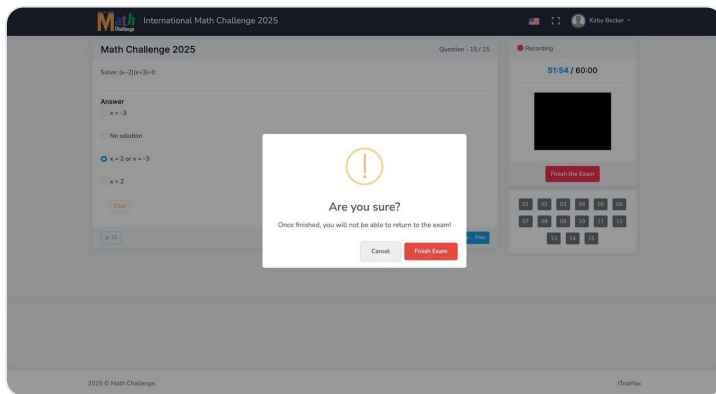

TIP Three wrong answers cancel one correct answer, but blank answers cost nothing. If a question takes too long, leave it and come back.

06

Keep track of your answers

Unanswered questions are highlighted in blue in the question number boxes. You can return to any of them until you submit.

07

Finish the exam

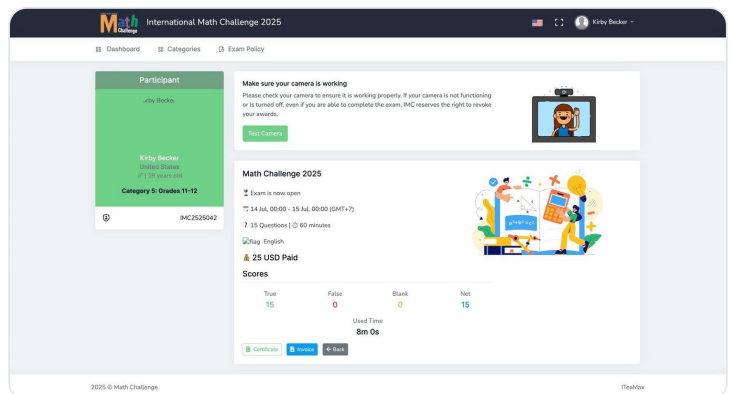

When you have answered everything, click **Finish the exam** and confirm in the pop-up window.

TIP Once you finish, you cannot return to the exam. Check your blue boxes first.

08

See your results

Your scores appear straight away: correct, wrong, blank, net score and the time you used. Click **Certificate** to download it as a PDF.

Good luck in your exam!
